COMPANY

Since 1980 BFT has been operating in the sector of automation systems for gates, garage doors and doors. BFT has always registered constant growth and has achieved objectives which ranks it among the first four world-leading companies of the sector:

- 86.000.000 Euros of group sales in 2007;
- 160 employees in Italy and 90 abroad;
- 11 subsidiaries in France, Spain, UK, Germany, Belgium, England, Croatia, Poland, USA, Portugal, Australia, Czech Republic;
- 530 distributors in more than 120 countries worldwide.

BFT is always close to its customers with a network of professionals who can answer rapidly to any technical or commercial issues.

To successfully compete in the global market and achieve its ambitious development plans, BFT joined the SOMFY Group in March 2004, worldwide leader in automatic control of openings and closures in homes and buildings with a turnover of 655.000.000 Euros achieved in 2006.

MISSION

To establish itself as a “Global Brand” universally recognized as charismatic “Quality Leader” in the automation system sector for gates, garage doors and doors.

To become synonymous of total comfort, reliability and safety.
